

Lakeview Community Wellness Center Orthopaedic Connection

Welcome The New Website and Newspaper Archive!

By Thomas J. Haverbush, M.D.
Orthopaedic Surgeon

Transforming patient information into patient understanding.

When I began to redesign our office website www.orthopodsurgeon.com, I had no clue it would take nearly a year. Well it did, but it is finally here. Perhaps just as important is the fact that the website has an Archive containing all 122 articles I have written for the Lakeview Area News over the last 2 ½ years.

What is the Archive?

In the new www.orthopodsurgeon.com website there is a list from 122 back to 1 of all the titles of articles I have written for Lakeview Area News.

In the Archive you can scroll down to an article you missed or one that interests you and click on it. The whole text of the article comes up to be viewed or copied. Amazing, but it works.

Why Do This?

Well, I do it for you. I have at times referred to what I am doing like a course in Orthopaedic Surgery and musculoskeletal topics. Sort of like getting a Masters Degree, if you stay with it long enough.

I gave you the notes for the course each week, but of course no one is keeping all their old newspapers.

Now the notes for all 122 classes are stored and easily available on the new and improved www.orthopodsurgeon.com website.

It is a vast field of information. I am trying to make information available to you every week that hopefully you or someone in you family can use in becoming more healthy.

Website Library and Newspaper Articles

I have this philosophy that as much as possible all medical information should be local. Most of the time with health information you read on the internet, you have no idea who wrote it or how accurate it is.

There is a section of the office website www.orthopodsurgeon.com which is a Library of articles I have written for you about all the things people need to know about Orthopaedics and musculoskeletal topics. As part of the Library you can also enter Your Orthopaedic Connection which has hundreds of more articles!

The Lakeview Community Wellness Center Orthopaedic Connection weekly articles in Lakeview Area News deal with similar material all written by me in a little more informal style.

Local Connection

The most accurate information comes from someone whose name you know and who writes about what they are doing every day in their work. I have been in Orthopaedic Surgery for a long time and have a wealth of experience and information to give you.

Furthermore, I plan to continue to work in your midst and keep informing anyone who cares to learn by reading the weekly Lakeview Area News article and logging on to the website www.orthopodsurgeon.com for tons of more great information.

I can evaluate all Orthopaedic problems at the Clinic at Lakeview Community Wellness Center or at the office in Alma, 315 Warwick Dr., Alma, Michigan. Call 989-463-6092 for an appointment at either place.

Future Clinic dates at Lakeview are June 18 and July 2, 2010.

Our goal is simple - To help people return to more pain free, functional lives. I specialize in you.

Good health. Good life. All the best to you.

Be well.

Dr. Haverbush
